

This Memorial Chapel situated in Christ Church Cemetery at Colchester, Ontario, is a replica of the original Christ Church (Anglican) built in 1819 on the bank of Lake Erie two hundred yards south of this Chapel. These stones were recovered from the ruins of the original Church and were brought from Pelee Island by sail-boat.

The windows and furnishings were donated to the Glory of God and in memory of the early settlers of this community by members of the present congregation and interested friends. You are cordially invited to visit this historic and hallowed Memorial.
